DETAILED ACTION

Allowable Subject Matter

Claims 1-9 are allowed. The following is an examiner's statement of reasons for allowance:

Knutson et al (US Patent 6,788,710) teach a VSB transmission system comprising a supplemental data processor that includes a supplemental data, encoding, inserting an auxiliary packet, inserting a null packet, and inserting an MPEG header and the multiplexer that multiplexes the supplemental data and the MPEG data. Kumar (US 5,966,401) teaches a data randomizer, a Reed-Solomon encoder, and an interleaver. Combes et al (US 6,704,366) teach a RS encoder, an interleaver, and a convolutional encoder in the transmitting section. The prior art of record fails to teach a data decoding part processing the data processed in said supplemental data symbol processor including symbol-byte converting, data de-interleaving, eliminating said Reed-Solomon parity added in the data encoding part before the VSB transmitter processing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
